[vtechhotelphones.com](https://vtechhotelphones.com)

# Guest Room Phone Brand Standards and Recommendations

---

Guest room and administration technology evolves every year. As partners, it is critical for us to specify approved and recommended products to our hospitality management and ownership customers. But how do you stay on top of constantly changing requirements?

This document gives you that power.

VTech is in constant communication with our brand customers. We maintain a current understanding of what is approved and recommended for each of their brands.

Use the directory to find the hotel brand and sub-brand you need. Click on that link and you have every guest room phone and admin phone for that brand with color options and product numbers. Add them to your quote and you are good-to-go.

Can't find the brand you need? Ask your VTech Hospitality sales director.

Better phones. Better service. Better support. That's VTech.

Sincerely,

Chad Collins  
Vice President of Hospitality  
VTech Communications
